2023  
Membership Application

## **MCEA Membership**

MCEA memberships are offered to school districts based on their size. A single fee will entitle the district to a certain number of full individual memberships. It is our belief that allocating a fair number of individual memberships through a district wide plan will bring more individuals into MCEA . This should make it easier to identify members of specialized fields within Community Education and it will also encourage greater participation among smaller districts.
